## Why These Programs Work

Adria's work is grounded in decades of international, award-winning performance, more than two decades teaching voice, presence, leadership, and performance. In June 2026 she was recognized as a **Top 50 Finalist in the Next Top Speaker Tournament, Season 7.**

Her sessions create real-time, visible shifts in how people think, speak, and show up, so audiences don't just understand the work. They experience it.

This is not a lecture.

It's an experience your audience will feel immediately.
